

Mr. Austin with **Alternative Concepts, Inc.** is a pleasure working with. I wanted a web site to publish my art work on the web and did not know the first thing as to how to go about it. I consulted with Mr. Austin as to what I had in mind and he went right to work getting the job done in record time. As the web site came onto the web, I had some small changes to add to the site and Mr. Austin was available on the phone as well as on e-mail to help me with my request. My web Site has already received many positive comments from all over the Country. I find that Mr. Austin is professional and very knowledgeable in his business. I will not hesitate to give **Alternative Concepts, Inc**

. a great recommendation wherever or whenever possible. Keep up the good work Mr. Austin, I am very impressed with your service.
